[Abdullah Basit](#)

EDUCATION

BS Computer Engineering

August 2023 - June 2027

Information Technology University, Lahore

Intermediate in Computer Science

July 2021 - July 2023

Unique Group of Institutions

SKILLS

Relevant Coursework: Embedded Systems, Digital System Design, Machine Learning, DBMS, DSA, OOP

Programming Languages: C, C++, Python, SQL

Web & Backend: Flask, HTML, CSS

Tools & Software: MATLAB, SolidWorks, Blender, GitHub, VSCode, Microsoft SQL

Soft Skills: Event Planning, Media Production, Technical Communication

PROJECTS

YOLOv5-Based Cleanliness Detection System (Ongoing) - Machine Learning (Group Project)

- A computer vision system that processes image inputs to perform real-time dirt detection and classification. The YOLOv5 model is trained and fine-tuned on augmented custom and open-source datasets for high real-world accuracy.

ITU Connect - University Web Platform (Group Project)

- Full-stack university platform built with Flask and Python. Includes an NLP-based chatbot (Naive Bayes, TF-IDF), a PDF resume builder (ReportLab), an academic resource hub, and a timetable system. Frontend in HTML, CSS, and JavaScript.

STM32 Bluetooth Controlled RC Car (Team Project)

- Developed a Bluetooth-controlled RC car using STM32 (Black Pill) and HC-05 module, enabling wireless control via Android device. Implemented PWM-based motor speed control and GPIO-based direction handling for 4 DC motors using L298N driver.

ESP32 Smart Object Detection & Alert System using Blynk IoT

- Developed an IoT-based object detection system using ESP32 and an ultrasonic sensor that triggers a buzzer alarm and sends real-time mobile notifications through Blynk IoT over Wi-Fi.

CERTIFICATIONS

AI For Everyone

August, 2025

By Deeplearning.ai, Coursera (Credential ID MEPJYKQYB6OQ)

EXTRACURRICULAR

Media and Events Director at IET OnCampus ITU

August, 2025 - June 2026

Led media coverage and event planning for IET OnCampus ITU.

Video Editor at IEEE Student Branch ITU

August, 2025 - June 2026

Produced and edited promotional video content for IEEE Student Branch ITU.

Publicity Member at IEEE WIE SBAG ITU

August, 2025 - June 2026

Assisted in promoting events and increasing outreach for IEEE WIE SBAG ITU
